

July, 20<sup>th</sup> 2023, Paris

Amundi Technology is pleased to announce the onboarding of Sienna Gestion on ALTO Investment platform. Sienna Gestion benefits from an integrated portfolio management system, supported by data management services, and an open architecture for the integration with its major business partners.

This choice is part of Sienna Gestion overall strategy to accelerate its digital transformation and focus on its core business.

With ALTO Investment SaaS platform, Sienna Gestion relies on a single tool for their €19,5Bn AuM<sup>1</sup>, and benefits from proven analytical tools, risk control and front-to-back processes, thanks to a scalable and integrated solution to support their growth and commercial development with improved efficiency.

Through this agreement, Sienna Gestion business units have extended their investment universe to additional asset classes and optimize their investment value chain, from portfolio construction and analysis, to compliance, middle office and risk.

**Xavier Collot, Chairman of the Board of Sienna Gestion:** *“Together with Amundi Technology’s teams, we successfully completed our transformation project and the deployment of ALTO Investment solution. Thanks to the joined efforts of our teams, we enriched our offering, streamlined and simplified our operation processes, allowing greater consistency and improve total cost of ownership.”*

**Guillaume Lesage, Chief Operating Officer of Amundi:** *“We’re very proud of this partnership with Sienna, and we’re looking forward to accompany Sienna Gestion’s future growth. The goal of ALTO, based on innovative, high performance open-source technologies and high value-added services, is to help our clients to optimize their business and to accompany their development and growth.”*

**About Amundi Technology:** Amundi Technology is the entity dedicated to technology products and services for all actors in the savings and asset management industry. Through the ALTO solution, it offers Portfolio Management System, Discretionary Portfolio Management and Advisory platform and savings software as well as specialized solutions. Amundi Technology gathers nearly 900 professionals in two main hubs, Paris and Dublin, and teams in 19 countries.

**About Sienna Gestion:** Sienna Gestion is the result of a strategic partnership between two shareholders: Sienna Investment Managers (Brussels Lambert Group), a European player specialized in managing unlisted assets (private debt, private equity, venture capital, real estate), and Malakoff Humanis, a mutual and paritarian group, a reference player in social protection in France. As an expert in long-term financial management and socially responsible investment, Sienna Gestion offers multi-asset investment solutions aimed at promoting investment with environmental and social impact for private and institutional investors.
